CONDITIONS OF SALE

- All goods remain the property of Scuba Equipment Africa until paid for in full. Liability passes with delivery.
- ITEMS MAY ONLY BE RETURNED FOR CREDIT BY PRIOR ARRANGEMENT. GOODS WILL ONLY BE ACCEPTED FOR RETURN WITHIN 60 DAYS OF ORIGINAL INVOICE, AND PROVIDED GOODS ARE IN ORIGINAL CONDITION AND PACKAGING. ALTERNATIVELY, AT OUR DISCRETION A HANDLING FEE OF 10% WILL BE CHARGED FOR ANY DAMAGED OR MISSING PACKAGING. DISCONTINUED ITEMS WILL NOT BE ACCEPTED.
- Accounts not queried within 30 days from statement, will be assumed to be correct. No credit notes will be passed after this period.
- Terms strictly C.O.D unless otherwise arranged.
- Interest at Prime plus 2% may be charged on overdue accounts. Prime rate will be the published rate of FNB.
- Prices are subject to change without prior notice.
- Possession of a pricelist does not constitute an offer to sell.
- Scuba Equipment Africa cc reserves the right to reject any order.
- Prices are quoted ex works.
- REGIONAL DEALERS: Free (economy service) delivery for orders over R8000.00 (excl Vat) with a maximum of one free delivery per week by a courier of our choice.
- AUTHORISED DEALERS: Free (economy service) delivery for orders over R8000.00 (excl Vat) with a maximum of one free delivery per week by a courier of our choice.
- 5 STAR AUTHORISED DEALERS: One free (economy service) delivery per week by a courier of our choice.
- Free delivery does not include weights or cylinders.
- With immediate effect, accounts will be credited with the actual amounts received by Scuba Equipment Africa after cash deposit or credit card fees have been deducted. The current rate for cash deposits is 1.35% and for credit cards is 4.5%, which is subject to change without prior notice.

PRICING GROUPS

PRICING GROUPS: Please note that there are multiple pricing groups with different pricing structures.

GROUP 1: SCUBAPRO: Retail items with a 3 tiered pricing structure.

GROUP 2: Promotional items and Consumables with a fixed wholesale and reduced markup.

GROUP 3: All SEALIFE, spares and other Professional use items with a fixed wholesale and reduced markup.

GROUP 5: SUBGEAR: Retail items with a 3 tiered pricing structure.

GROUP 6: H2O: Retail items with a 3 tiered pricing structure.

WARRANTY

SCUBAPRO regulators are guaranteed for life, for the initial buyer. SUBGEAR regulators are guaranteed for 30 years, for the initial buyer. All other articles are guaranteed for two years. We are liable under the said guarantee solely for manufacturing defects duly noted by our technical departments. The guarantee may not apply if our equipment is not used and maintained under the conditions stipulated in the technical notices, or if it is due to normal wear and tear.

SCUBAPRO, SUBGEAR & SEALIFE RESERVE THE RIGHT TO EITHER REPLACE OR REPAIR AN ITEM UNDER WARRANTY.

REGULATORS

SCUBAPRO MK25 EVO

new

SCUBAPRO leads the way in piston controlled first stages. The MK25 Evo is the perfect example, bringing you ultra stable intermediate pressure which ensures an instant and constant delivery of ultra high airflow. Now ushering a new era of cold water protection, the Extended Thermal Insulating System (XTIS) fully insulates the inner mechanical components, surging the cold-water protection rating another 30%. Made of chrome-plated, marine-grade brass, you can count on an incomparable performance for all diving conditions and at any depth.

- Polished chrome-plated marine grade brass.
- Balanced High Performance First Stage.
- Air-Balanced Flow-Through Piston Design.
- XTIS total thermal protection.
- Thermal exchange design with external fins, optimising freezing resistance.
- Externally Adjustable Intermediate Pressure.
- 5 Port LP Swivel and Dual HP Ports.

GROUP 1

PART NUMBER	DESCRIPTION	RRP (incl. VAT)	DIVE TEAM (incl. VAT)
10 713 010	INT 232	7495.00	5621.25
10 713 030	DIN 300	7495.00	5621.25

SCUBAPRO MK21

A compact balanced piston controlled first stage with exceptional breathing performance at a mid-range price. Compact in size but not in features, this modern, cutting-edge design first stage has a 'smart' hose layout for perfect positioning and easy identification, ideal for technical divers.

- Close to 20% smaller than our MK25.
- Easy maintenance.
- Thermal exchange design with external fins, optimising freezing resistance.
- Optional replaceable head for optimal positioning with 4LP routing configurations (0°/30°) plus a 5th, central LP HF port.
- Standard head with 4 LP hose routing (+/20°).
- 2 HP ports, one on each side of the body.
- Polished chrome-plated marine grade brass.
- Re-designed yoke and cap.

GROUP 1

PART NUMBER	DESCRIPTION	RRP (incl. VAT)	DIVE TEAM (incl. VAT)
10 721 000	INT 232	5995.00	4496.25
10 721 300	DIN 300	5995.00	4496.25

SCUBAPRO MK17

The MK17 is a high performance, balanced diaphragm first stage engineered especially for cold water or harsh environments. The MK17 is environmentally sealed so neither water nor pollution can enter the inner mechanism. Full-metal (chrome plated marine grade brass) body and components and a dry ambient pressure chamber prevent it from freezing, ensuring trouble free operation even in coldest conditions.

- Polished chrome-plated marine grade brass.
- Balanced, diaphragm controlled High Performance First Stage.
- Dry Seal Chamber.
- Thermal exchange design with external fins, optimising freezing resistance.
- Externally Adjustable Intermediate Pressure.
- 4 LP (2 High-Flow-Port) and Dual HP Ports.

GROUP 1

PART NUMBER	DESCRIPTION	RRP (incl. VAT)	DIVE TEAM (incl. VAT)

10 714 300	DIN 300	4995.00	3746.25

SCUBAPRO MK11

With its chrome plated brass body specially designed to reduce size and weight, the MK11 is an ideal travel companion. The diaphragm system keeps water and pollution out of the main mechanism while balanced technology delivers air promptly at all tank pressures.

- Polished chrome-plated marine grade brass.
- Balanced, diaphragm controlled High Performance First Stage.
- Externally Adjustable Intermediate Pressure.
- 4 LP (2 High-Flow-Port) and Dual HP Ports.

GROUP 1

10 708 300	DIN 300	4195.00	3146.25

SCUBAPRO MK2 EVO

new

Bullet-proof reliability & minimal maintenance. This time-tested design is a classic for a reason. Its straighforward mechanism allows for greater control of the tank's pressure drop while it feeds the second stage. Now ushering a new era of cold water protection, the Extended Thermal Insulating System (XTIS) fully insulates the inner mechanical components, surging the cold-water protection rating by an impressive 50%. This continuously updated classic downstream piston regulator remains as popular as ever, especially in schools and training centers. Compact, simple and reliable, the MK2 Evo is built for easy maintenance and great performance.

- Polished chrome-plated marine grade brass.
- Standard Piston Design.
- Removable stainless steel orifice for easier maintenance.
- 4 LP Ports - 1 HP Port.

SCUBAPRO A700

- Precision crafted full metal construction and design, for best thermal exchange, lowering freezing potential in cold water.
- Innovative technological features.
- Compact dimensions.
- Air balanced valve technology for super smooth breathing.
- Diver adjustable inhalation effort with micrometric adjustment knob.
- Newly aligned VIVA system for better control and comfort.
- Super high flow exhaust valve.
- Supercomfort High-flow mouthpiece.
- Adjustable VIVA to prevent surface freeflows.
- Double O-ring seals.
- Ultra-flexible Superflow hose.

SCUBAPRO S600

Restyled in 2013, our best-selling S600 is continuously evolving and is currently in its 5th edition. Timeless design and chrome plated marine grade brass make this high performing system a classic.

- Air Balanced Flow Valve.
- Diver Adjustable Inhalation Effort.
- Adjustable VIVA to prevent surface freeflows.
- High Flow Exhaust Valve.
- Metal Components.
- Supercomfort High-flow mouthpiece.
- Double O-ring seals.
- Ultra-flexible Superflow hose.

11 603 000		7495.00	5621.25

SCUBAPRO G260

The G260 is a balanced adjustable second stage featuring metal components for excellent cold water resistance (inlet tube, orifice, inhalation control knob and hose connector). Its high performance makes it a good choice for demanding divers and it will be the natural choice for G250 fans. The left-right hose attachment option makes it ideally suited for tech diving configurations.

- Air Balanced Flow Valve.
- Diver Adjustable Inhalation Effort.
- Adjustable VIVA to prevent surface freeflows.
- Super High Flow Exhaust valve.
- Metal Components.
- Large Diaphragm.
- Reversible Hose Attachment.
- Supercomfort High-flow mouthpiece.
- Double O-ring seals.
- Ultra-flexible Superflow hose.

SCUBAPRO S560

A lightweight, techno-polymer barrel, air balanced second stage, with diver adjustable inhalation effort and VIVA. The S560 ensures effortless and smooth breathing in all conditions.

- Lightweight techno-polymer barrel.
- Air Balanced flow Valve.
- Diver Adjustable Inhalation Effort.
- Adjustable VIVA to prevent surface freeflows.
- High Flow Exhaust Valve.
- Supercomfort high-flow mouthpiece.
- Double O-ring seals.
- Ultra-flexible Superflow hose.

SCUBAPRO S360

new

Receiving a facelift for 2015, the S360 is an air balanced second stage with adjustable VIVA. This system is based on the new S560, but with pre-tuned inhalation for uncomplicated use. It's an ideal choice for avid divers wanting performance in a simple to operate system.

- New Air balanced Flow Valve second stage.
- Adjustable VIVA to prevent surface freeflows.
- Pre-tuned inhalation effort.
- High flow Exhaust valve.
- Double O-ring seals.
- Supercomfort High-flow mouthpiece.
- Ultra-flexible Superflow hose.

GROUP 1

PART NUMBER	DESCRIPTION	RRP (incl. VAT)	DIVE TEAM (incl. VAT)
11 363 000		4195.00	3146.25

SCUBAPRO R095

new

Restyled and richer looking, R095 recieves a facelift for 2015. The R095 features classic downstream valve technology, well known for safety and reliability. Pre-tuned for safe and uncomplicated use, a certain inhalation effort is always required to open the valve. The R095 is designed to be a simple, no fuss regulator and to provide a simple and reliable breathe.The hose for the R095 can be reversed to come from either the right or the left to provide the most comfortable hose routing.

- Classic downstream valve.
- VIVA Preset.
- Ultra-flexible Superflow hose.
- Full metal valve housing.
- Left/right hose attachment.

S600 SYSTEMS

SCUBAPRO MK25/S600 TITANIUM - SPECIAL ORDER

The first stage is machined from a solid block of titanium; the second stage uses titanium on the exterior housing plus a machined titanium interior barrel, for ultra light high performance. Beyond weight, titanium does not corrode, even in concentrated salt water conditions, for unlimited years of use. And its low-magnetic signature makes it the preference of military divers.

SCUBAPRO AIR2

Now in a new FIFTH generation version, the AIR2 is more streamlined, modern, ergonomic and lighter. Not only an extraordinary BC inflator, the work-of-breathing has been dramatically improved, providing the same smooth breathing performance as a downstream second stage regulator, at all tank pressures. Its components' design takes advantage of the best regulator technology to guarantee maximum efficiency and reliability.

- Classic Downstream Valve.
- Dive/Pre-Dive Switch for adjustable VIVA.
- Improved design, control and safety for BC inflating.
- Larger deflation button and high-comfort mouthpiece.
- CE certified EN250 (A> 10°C warm water test controls) as a second stage regulator.
- Can be assembled on any BC.
- Single Hose Configuration.

SCUBAPRO

COMPUTERS & INSTRUMENTS

SCUBAPRO GALILEO SOL

The Galileo Sol is our ultimate dive computer, with limitless, unique to the industry features.

- Extra-large dot matrix display and huge memory.
- Exclusive Heart Rate Monitoring System.
- Predictive Multi Gas algorithm.
- User adjustable backlight display.
- Choice of 3 pre-figured screen display modes: Light, Full and Classic.
- Full-Tilt Digital Compass with Bearing Memory.
- Hoseless Gas Integration with True Remaining Bottom Time Calculation.
- Updatable Processor that can be reprogrammed via Infared.
- EN Certification to 330m.
- User-replaceable battery with tissue loading memory.
- ZH-L8 ADT MB (adaptive) algorithm w/ advanced microbubble suppression technology.
- Nitrox 21% to 100% (1% increments).
- True remaining bottom time (RBT) calculated using tank pressure, breathing rate, depth, ideal ascending speed and more.
- PDIS (Profile Dependent Intermediate Stops) for optimised diving
- Oil Filled technology.
- Infrared technology and PC download capability.
- 300 bar compatibility.
- Dive planner.
- Displays current tank pressure and remaining bottom time (RBT).
- Mid-tank pressure warning / Maximum depth alarm.
- Easy to use user interface, similar to a cell phone.
- Personalised with owner or emergency or health information.

GROUP 1

05 077 100	SOL (with Polar HR strap and air transmitter)	23995.00	17996.25
05 055 020	Galileo/Smart Air Transmitter only	6495.00	4871.25

SCUBAPRO GALILEO LUNA

All of the features of the Galileo Sol except two, which can be added as optional upgrades later:

- Exclusive Heart Rate Monitoring System (HRM).
- Predictive Multi Gas algorithm (PMG).

GROUP 1

PART NUMBER	DESCRIPTION	RRP (incl. VAT)	DIVE TEAM (incl. VAT)
05 076 100	LUNA with transmitter	19995.00	14996.25
05 076 101	LUNA without transmitter	14995.00	11246.25

SCUBAPRO GALILEO UPGRADES - SPECIAL ORDER

HEART RATE MONITOR UPGRADE -

- Update Galileo Luna to include Heart Rate Monitor.
- Includes Galileo Software upgrade key code & belt.

PREDICTIVE MULTI GAS UPGRADE -

- Update Galileo Luna with Predictive Multi Gas Function (3 gas).

TEC SW / TRIMIX UPGRADE -

- Update Galileo Sol / Luna to use Helium gas mixes (Trimix).
- Up to 10 gas mixes.
- Luna requires the PMG upgrade before Trimix is possible.

GROUP 1

PART NUMBER	DESCRIPTION	RRP (incl. VAT)	DIVE TEAM (incl. VAT)

SCUBAPRO MERIDIAN

- Marine grade 316L stainless steel case.
- Magnetically operated buttons - No holes through case & no O-rings!.
- World's first 32bit processor watch computer.
- SCUBA mode with 21 - 100% Nitrox & adjustable PP02.
- Predictive Multi Gas (PMG) - 2 Gas.
- PDIS - Intelligent Deep Stops calculated to optimise dive profile.
- ZHL8 ADT MB algorithm - Adapts for altitude, temperature, dive profile & workload.* User selectable conservativeness - L0 to L5.
- Optional integrated Heart Rate Monitor for workload calculation.
- APNEA mode with a specific low HR alarm.
- GAUGE mode for extreme technical diving.
- Full watch functions - date and time in 12 or 24 hour notation, stop-watch underwater and on the surface, UTC setting, wake-up alarm, silent mode & battery status display.
- OUTDOOR functions - thermometer, altimeter & stop-watch.
- Maximum depth: 120m.
- Ultra low energy consumption for long battery life.
- Reverse Contrast Backlight extends battery life.

SCUBAPRO MERIDIAN BLACK TECH - LIMITED EDITION

Incorporates a PVD (Physical Vapour Deposition) finishing process applied to the AISI 316L Stainless Steel body. PVD, when applied on metal surfaces, increases ruggedness, scratch resistance and surface hardness. The finish is accomplished using Titanium Nitride and provides the following advantages:

- 2500HV hardness for significantly improved anti-scratch effect (compared to stainless steel's 190HV harness).
- Unaffected by UV rays.
- 100% non-toxic.
- High corrosion resistance.
- Low friction co-efficient.
- Very low magnetic signature.

SCUBAPRO CHROMIS

The new CHROMIS wrist computer is ready for your next adventure, in or out of the water. Reaching a new level of clarity, the large display and Katana sharp characters are proven to be exceptionally readable underwater. You'll have a host of tools at your fingertips, including a full featured dive computer, apnea gauge, timepiece and patented swim stroke counter.

- Easy to read larger digits.
- ZHL8 ADT MB algorithm.
- Dual time.
- Stopwatch function in SCUBA mode.
- 120m maximum operating depth.
- Larger capacity CR2430 battery.
- SCUBAPRO engraved SS316L stainless steel front ring and back.
- Patented Swimming Stroke counter: counts strokes or kicks and calculates distance.
- Colors: Black, Orange, White.
- Strap extension included.
- Nitrox settings 21% to 100%.
- APNEA and GAUGE modes.
- Optional USB connection.
- Logs can be stored and analyzed with a PC/Mac.
- Alarm clock.

SUBGEAR XP-3H

new

Restyled for 2015 to include a Silver face plate, the XP-3H is an easy to use, integrated pressure computer that offers the Predictive Multi-Gas algorithm. Ideal for divers who want the flexibility to use their computer's diving function or gauge mode.

- Easy-to-read display design.
- ZH-L8 ADT MB Algorithm.
- Predictive Multi Gas (PMG) with 3 gases.
- Profile Dependent Intermediate Stops (PDIS).
- Nitrox settings 21% to 100%.
- Gauge mode.
- Active backlight.
- Bookmark function.
- Easily replaceable battery.
- Infrared technology.
- Dive/apnea logs can be stored and analysed with a PC.
- 120m depth rated.
- Replaceable screen protector.
- Support of Closed Circuit Rebreather system.

BUOYANCY COMPENSATORS

SCUBAPRO KNIGHTHAWK

new

One of SCUBAPRO's most popular BCs returns for 2015. Knighthawk is a robust and comfortable back flotation BC that integrates numerous performance features to deliver outstanding comfort and easy handling.

- Back flotation technology positions air bladder in the back.
- 3-dump deflation system.
- Streamlined air cell technology.
- Rotating Quick Release shoulder buckles and adjustable shoulder straps.
- Dual zippered pockets.
- Soft neoprene neck roll and padded back pad.
- Firmly padded, flexible cummerbund.
- Ergonomic harness.
- Patented Quick-Release Buckle Weight System.
- Rear trim pockets hold up to 2,5 kg of non releasable weights each.
- 1000 denier nylon outer bladder and 420 denier nylon inner.
- Pre-bent stainless steel D-rings.

SUITS, BOOTS & GLOVES

SCUBAPRO EVERTEC LT - SPECIAL ORDER

This is a newly redesigned, lighter weight version of the original Evertec tri-laminate drysuit - with telescopic torso, flex seals, and new, seamless heel neoprene socks. Constructed in a new rip-stop fabric, which is 25% lighter than its predecessor, with a slight stretch for better flexibility.

- High Quality Heavy Duty trilaminate material ensures durability and quick drying, yet remains light weight.
- Telescopic torso plus elastic suspenders and crotch strap.
- Flex Seal seams keep the suit comfortable and flexible.
- Long diagonal T-Zip Masterseal dry zipper for self-closing and easy donning.
- Additional Nylon Flap with zipper closure protects the dry zip.
- Practical and easy access utility pocket on thigh.
- The warm neck collar keeps the heat in and protects the latex collar.
- Double material in contact areas.
- Soft compressed neoprene socks that can be worn alone, with neoprene boots or with heavy duty boots.
- Si-Tech® balanced side-activated inlet and adjustable outlet valves.

SCUBAPRO EVERDRY 4 - SPECIAL ORDER

Made of 4mm thick high density neoprene, Everdry 4 is comfortable like a wetsuit, but as a drysuit, keeps you warm and water tight.

- 4mm high-density neoprene maintains optimal thermal insulation but weighs 50% less and is softer than any traditional dry suit.
- Si-Tech® balanced side-activated inlet and adjustable outlet valves.
- Reversed construction rolling neoprene neck seals: watertight protection and easy to get in and out of.
- Easy-to-repair neoprene wrist seals for no-leak insulation and comfort.
- Dry back zipper with exterior neoprene protection flap.
- Elastic, adjustable & removable suspenders.
- 5mm/6.5mm anatomically shaped hood keeps you dry & comfy: prolonged neck; soft face & neck seals; air release system.
- Soft sock neoprene boots.

SCUBAPRO ONEFLEX 5MM STEAMER

The new Oneflex steamer was designed to maximise durability without sacrificing comfort. They are made of a strong but stretchable X-Foam neoprene with a tough nylon lining and anti-abrasion material on knees, perfect for an all-round entry level wetsuit. Oneflex suits offer comfort and long life even with intensive use.

- Nylon.
- Back Zip.
- Ankle Zips.
- Everflex or Flexible Panels.
- Powertex.
- 'X-Foam' high-quality enviro-friendly neoprene construction.

SCUBAPRO PROFILE 0.5MM STEAMER

new

- 'X-Foam' high-quality enviro-friendly neoprene construction.
- 'Everflex' panels in flex zones: Excellent comfort & freedom of movement.
- 'Powertex' anti-abrasion material on the seat and shoulders: Provides better durability in high-wear areas.
- 'Silverskin' interior on the torso: Extra heat-retention, comfort and fast drying.
- 'Double Nylon' coated interior on arms, legs and seat: Easier donning and better durability.
- 'Flat seam' stitching: Non-chaffing for comfort, strength and flexibility.
- 'Diagonal Stitching': Great ergonomic look and fit with improved durability.
- 'Tatex' reinforced knee pads: Heavy-duty protection without losing flexibility.
- 'Thumb Loops & Stirrups': Prevents riding up when using as an under-suit.

SCUBAPRO SEAWING NOVA 2

new

New model for 2015 with improved performance and better grip for slippery surfaces.

- Soft co-moulded Grip Pads made from a special grade of Thermo Plastic Vulcanizate (TPV) to provide excellent grip properties together with extremely high abrasion resistance and tear strength.
- Modified Blade Geometry to acheive slightly higher levels of lateral rigidity for a boost in performance!
- Articulated joint allows the blade to pivot and the entire blade is able to generate thrust.
- Clean water blade geometry for optimum propulsion - drag is reduced and thrust increased.
- Pivot Control Technology (PCT) optimises angle of attack.
- Ergonomic foot pocket with extended heel plate.
- Heavy duty marine grade bungee strap system.
- Durable Monprene® construction making the Seawing virtually indestructible.
- Spare straps available.

SCUBAPRO NOVA 700 LIGHT

new

- Rugged black aluminum body offers a stealthy “tech” look while providing lightweight long-term durability.
- Interchangeable light head is equipped with the newest CREE XML2 LED.
- 700 lumen illumination ranks among the best in its class.
- Double O-ring seals ensure watertight integrity.
- Diamond-shaped knurling (metal indentations) on both handle and light head guarantees a firm grip, with or without gloves.
- Easy twist on/twist off activation allows for trouble-free operation, regardless of depth.
- Shock-proof rubber protections keeps the light head from knocks and bumps.
- Over-pressure valve releases any battery off-gassing—the ultimate dive light safety feature not normally found on torches in this price point.
- A depth rating of 300m ensures worry-free lighting in virtually all diving conditions.
- The Nova 700 is powered by 3 x C Cell batteries (batteries not included).

GROUP 1

SeaLife®
by SUBGEAR

* Limited Edition Pink

DC1400 HD

Special SeaLife Features

- "Piano Key" controls for easy operation. 5 large buttons with big shutter and zooming lever for easy camera control, even with gloves on
- Easy Set-up mode – Easy 1-2-3 graphic on screen guide –takes the guess work out of setting up the camera for great pictures
- 6 Underwater Modes for sharp, colorful underwater pictures under any conditions. Includes 4 built-in digital color correction filters
- Expandable with one or two SeaLife Digital Pro Flashes (SL961) and Photo-Video Lights (SL980) (Note: SL970 wide-angle lens will vignette)
- Spy Mode – The camera automatically shoots continuous pictures at set time intervals
- Rubber armored, shock-resistant for rough handling and tough environments
- Depth tested to 200 ft (60m) – Guaranteed
- Manual shutter and aperture control in Ext Flash mode
- No O-ring lubrication required – Hassle-free O-ring maintenance - Just keep O-ring clean!

Technical Features

- HD Video mode – Record continuous High Definition video with sound
- 14 megapixel CCD for sharp, high-resolution pictures
- 26mm Wide Angle lens. Get closer to the subject and fit everything into the picture
- Super Macro Auto focus from 1" (5cm) to ∞
- Large 3.0" LCD for easy on-camera viewing
- 25X zoom - 5X optical zoom plus 5X digital
- Lithium battery 700mAh for 2+ hrs/200+ pics
- Fast shutter response time* and quick start-up for fast action photography. *(As fast as 0.3 sec in Ext Flash mode and infinity focus)
- SD and SDHC card compatible up to 32GB
- 27 Land Scene modes – Automatically pre-sets the camera for the type of scene
- Removable inner camera
- Optical Image Stabilisation (OIS) – CCD shift technology reduces camera shake caused by hand movement
- Manual White Balance control with short-cut key for fast and easy manual white balance setting

micro HD+™

32 GB + WiFi

PERMA Seal™

NEVER LEAK TECHNOLOGY
Permanently sealed with no doors or O-rings.

Free APP: Micro HD+ connects wirelessly to iOS & Android devices.

MICRO HD+ new

The innovative new Sealife Micro HD+ features 13MP, full 1080p HD video, a 140-degree fisheye lens and wireless connection to your smartphone or tablet. At just 4 inches wide, it packs all the features needed to capture and share your amazing underwater encounters!

MICRO HD+ does NOT leak:
- It is permanently sealed.
- There are no openings, no O-rings, no waterproof doors.
- High-capacity internal battery - 2350 mAh Li-ion.
- 32GB internal memory – No need for memory cards.
- Battery charging via waterproof USB.
- Download and/or smart phone remote control via WiFi.

MICRO HD+ is SIMPLE:
- Three easy piano keys - VIDEO - MODE - ON/OFF.
- Easy to use, even wearing dive gloves.
- Practically maintenance free - only needs to be rinsed.

MICRO HD+ is VIDEO and PHOTO:
- MICRO HD+ can take photos while filming HD video.
- Rapid Fire and Time Lapse Shooting at set time intervals.
- 8000 pictures or 6 hours of video.
- Fixed focus & fast shoot - 30cm to ∞ (infinity).

MICRO HD+ is totally PRO:
- Built-in 6cm colour LCD screen.
- 3 continuous hours of battery life.
- Fully Rubber-Armoured and shock resistant.
- Tested waterproof to 60m.
- Dive modes with depth colour correction. Add back reds!

MICRO HD+ is PRACTICAL:
- Ultra compact design - 50% smaller than DC1400HD.
- Totally compatible with all current Sealife accessories.

Camera back features large "Piano Keys" for easy underwater use.

The ideal camera for diving, outdoor sports and traveling.

REEFMASTER MINI

The ReefMaster Mini builds on the success of the multi-purpose Mini 2 by being specifically designed as a self-contained underwater dive camera. With a 60m depth rating and new colour enhancing firmware, divers are able to capture outstanding photos and videos with vibrant colour. The included Mini Wide Angle Lens allows you to get really close to your subject, further improving picture quality and macro ability. The enhanced Easy Setup Guide ensures you get the best results with the minimum effort.

As with its Mini 2 sibling, the ReefMaster Mini is extremely compact and easy-to-use with a large LCD screen, bold-red rubber grip and widespread controls for easy underwater handling.

- Waterproof to 200ft / 60m
- Mini Wide Angle Lens (SL974) included - Provides a wider field-of-view and 1ft/30cm shooting distance
- Large, wide spread 3-button design for easy operation
- Easy Set-up mode – Graphic on-screen guide for setting camera mode – no complicated menus
- Land Auto mode for action land pictures and videos in extreme conditions
- Dive and Snorkel modes for underwater exposure control and color correction – no more blue pictures
- Ext Flash mode for integration with external flash to enhance color and brightness underwater
- Video mode at 30fps with sound
- Fully Rubber-Armored, Shockproof 6ft / 2m
- Instant focus lens from 1ft (30cm) to infinity
- Spy Mode – The camera automatically shoots continuous pictures at set time intervals
- Compact, slim design
- Self-contained dive camera (no housing)
- 9 megapixels for sharp, high-resolution pictures
- Large 2.4" TFT Color LCD for easy on-camera viewing
- Soft Rubber grip design for sure grip
- SD and SDHC card compatible (Up to 8GB)
- Expandable with popular SeaLife accessories (including the Digital Pro Flash and Photo/Video Light & Mini Wide Angle Lens)

DC1400 REEF EDITION SET

The new SeaLife DC1400 Reef Edition pairs the DC1400 underwater camera with the ultra-wide Fisheye Lens for stunningly beautiful underwater photos and HD videos. The Fisheye Wide Angle Lens increases the already wide lens of the DC1400 camera to 16mm – an 80% increase in field of view!

The DC1400 Reef Edition gives you the incredible perspective of an entire wreck or reef scene that would be impossible to capture with a standard lens. Maintain a wide field of view all the way down to 1-inch of your subject in Super Macro Auto Focus Mode with your Fisheye Wide Angle Lens. The versatile Fisheye Lens works equally as well for shooting HD videos with your DC1400, adding more to the shot while easily staying within the distance limits of a video light.

The set includes the DC1400 underwater camera and Fisheye Wide Angle Lens, perfectly sized for air travel or bringing aboard the dive boat. The DC1400 Reef Edition easily expands with all of SeaLife's underwater lighting accessories, in order to bring out even more color and depth in your photos.

SEA DRAGON DIGITAL FLASH

The powerful and compact Sea Dragon Flash makes it simple to add light to your images down to 200 feet/60 metres. Reducing backscatter and producing rich, deep colors in underwater photos, the Sea Dragon Flash is compatible with all SeaLife camera models as well as other brands of underwater cameras.

Variable power adjustment and large controls make it easy to fine tune brightness, while leaving the flash in Auto Mode automatically adjusts brightness for optimal exposure. A quick-release button detaches flash head for aiming in hard to reach areas.

- Universal - Works with SeaLife and other brands of underwater cameras.
- Auto Mode automatically adjusts flash brightness for optimal image exposure.
- Variable power adjustment allows user to manually fine-tune flash brightness for desired effect and image exposure.
- Easy to expand with Flex-Connect™ trays, grip and Flex Arms.
- Depth rated to 200 feet/60 metres.
- Quick-release button to detach flash and aim in crevices and hard to reach areas.
- Universal mount fits all SeaLife cameras and other brands of underwater cameras with standard tripod mount.
- Auto Learn Mode easily syncs pre-flash with any digital camera.
- Effective underwater distance range up to 8 feet/2.5 metres.
- Approximately 150 flashes with 4 AA batteries (not included).
- Waterproof battery compartment.

SEA DRAGON 2000 PHOTO VIDEO LIGHT

For a constant, ultra-bright source of light for photos and videos - or just to brighten your dive - the compact Sea Dragon 2000 uses the latest in LED technology and packs 2000 true lumens of brightness. Powered by a rechargeable lithium ion battery, the light burns for a full hour at 100% power with constant brightness.

Featuring a wide, 100-degree beam angle that's perfect for cameras with a wide field of view, the light operates with only a single button, quickly adjusts between 3 power levels, and is depth rated to 200 feet/60 metres.

- Powerful 2000 lumen LED light using the latest LED technology, featuring 6x CREE XPL LEDs.
- One button control for easy operation - one button to power light on/off and select brightness.
- Three brightness levels: 100%, 50% and 25%.
- 60 minute burn time at full power and constant brightness.
- Depth rated to 200 feet/60 metres - Guaranteed.
- Easy to expand with Flex-Connect™ trays, grip and Flex Arms.
- Quick-release button to detach light and aim in crevices and hard to reach areas.
- Auto Flash Detect Mode turns light off for 2 seconds when external flash is detected.
- 100° wide beam angle evenly illuminates the subject with no hot spots.
- Corrosion-proof metal light head for heat dispersion and durability.
- Removable Li-Ion battery w/ charger and international plug adapters included.
- Waterproof battery compartment.
- Universal mounting screw fits SeaLife and other brands of underwater cameras w/ standard ¼20 tripod mount.

SEA DRAGON MINI 600 PHOTO VIDEO LIGHT

Designed for multiple applications down to 300 feet/100 metres, the Sea Dragon Mini 600 features a wide 75-degree beam angle, two power modes, and easy on/off control with the twist of the light head bezel. Power is supplied by two CR123 batteries (included) or an optional rechargeable lithium ion battery (Tenergy 18650 3.7v) delivering up to 100 minutes of burn time at full power.

The Sea Dragon Mini 600 is compact enough to fit comfortably in your hand, but can also easily be used for other applications. With the included GoPro camera mount, cold shoe mount, SeaLife AquaPod mount, universal Y-S adapter and lanyard clip, you can add brightness to your dive in any situation.

- Powerful 600 lumen LED dive light using new CREE XM-L2 LED.
- 75° wide beam angle.
- Easy operation twist head to power on/off.
- Easily adjust between two power modes – 100% and 40%.
- Depth tested to 300 feet/100 metres - Guaranteed.
- Includes two CR123 lithium batteries delivering an hour of burn time at full power.
- Rechargeable Tenergy 18650 Li-ion battery also available, delivering 100 minutes of burn time at full power.
- Anodised aluminum head and tough polycarbonate body.
